

DURE BEER will never take the place of solid food - yet it is wholesome and nourishing. Malt beverages are prescribed by physicians for those of weak digestion; Convalescents use Narragansett products to help them along the road to health. Robust men drink pure beers and ales for their nourishment as well as the flavor and thirst-quenching qualities.

Scientists have long debated whether the alcohol in beer is digestible or not. But the point is not important, because the quantity of alcohol is negligible—a mere tride, less than 5%.

are all "pure food" beverages. ON DRAUGHT EVERYWHERE.

a minute or two, and then all he could say was the place is mine and that no others need apply."

ity, a passenger gave the information that the engineer of the train had been injured at Hillsgrove. So the news-gatherer boarded the train and asked the rear-end trainman for information regaring the matter. trainman gave the name of the engineer, but he said he knew of no de ails, as he went to the rear when the train was stopped to protect the train as required by regulations, but sug-gested inquiry of the middle train-

That gentleman knew nothing of now the fatal injuries were received, but told of the nature of the wounds adding that the engineer was probably leaning out of the cab window and was struck by the obstruction. Then along came the conductor. He, too, said he knew nothing of the details, but presumed that Mr. Vars was struck by the arm of one of those mail catchers, as the wounds indicated something of that kind. He gave the information that an engineer who had been a passenger on the train was in the cab and would take the train to New London, but that he did not know his name.

At New London the station agen was questioned. He gave the name of the substitute engineer and also the committee to improve Main street, Ashaway, a grade for said street being name of the engineer that was to re-established. Bills to the amount of leve him and take the train to New \$211.74 were ordered paid. name of the engineer that was to relieve him and take the train to New
York. He also gave the information
that Engineer Vars had died before he
reached the hospital, but he had received no details. The station master
did not know the name of the fireman,
but said he was on the engine, and
suggested that the news-gatherer see
him and get the retails as he was the
only man in the cab with the ensineer
when the injury was received. Off
hurried the news gatherer to the head a petition for the appointment of an administrator on the estate of W. Wayland Lewis was received and contember 8th next. A petition of Lulu I Palmer, guardian of her minor children, for permission to sell certain real estate belonging to her wards was referred to Sept. h with order of hurried the news-griberer to the head of the long train, anticipating a comprehensive interview with the fireman. As soon as the attention of the fireman could be had he was first asked for his name, and with this re-

sult.
"What's my name? What's that to you? What do you went to know for?

cate no mail catcher near Hillsgrove that could have struck Mr. Vars, but one suggested that there was a danger spot near Olneyville where such an ac-cident could have occurred, but that was five or six miles distant from Hillsgrove, and had Mr. Vars been fit there and rendered unconscious his condition would have been discovered by the firemen soon thereafter. Per-haps the reason why the firemen did not relate the details was because he had no such knowledge, and all knew of the matter was that he for Mr. Vars unconscious and stopped the train. But he certainly knew his own name and ought to have given it when asked to politely by even a common ing his name for publication under the conditions. Without the name the re-port of the fatality would not have been complete and that was the only
